GENERAL STATEMENT

History of the University The Jesuits came to New Orleans in 1847 with the purpose of establishing a college of Liberal Arts and Sciences. On February 1, 1849, the College of the Immaculate Conception, founded by them, began its remarkable career at the corner of Baronne and Common Streets. To it was attached a college preparatory academy. In 1904 the Jesuits opened an academy and a college on St. Charles Avenue opposite Audubon Park. These two associated institutions were known as Loyola College. In 1911 the College of the Immaculate Conception was united with Loyola College on the present Loyola campus. The Academy of the Immaculate Conception became the Jesuit High School. With it was united the preparatory school of Loyola College.

In response to a general demand from the public and an urgent request from His Excellency, Most Reverend James J. Blenk, then Archbishop of New Orleans, Loyola College was expanded into Loyola University in the fall of 1911. The University was authorized by the General Assembly of Louisiana in 1912 to grant all university degrees.

Loyola University of the South is but one of the many educational institutions conducted by the Jesuit Fathers in the United States and in many other countries. In the United States alone, the Jesuits conduct 50 educational institutions with a total enrollment of 60,000 students.

Jesuit System of Education Jesuit universities and colleges are unique in their characteristic educational methods. Theirs is a system of education based on the best traditions, the experience, and the research of the better educators in many countries through many centuries. The fundamentals of this system are embodied in a collection of pedagogical principles and practices known as the *Ratio Studiorum*.

This system is distinctive in its aim and objective as well as in its method of approach. Thoroughly convinced that religion is not an appendage to education, but a very vital part of the training of the student and of the subject-matter of his courses, the Jesuits always have held as the goal of education the blending of the supernatural with the natural. Their purpose has been to produce a perfect man, seeking to develop his moral character as well as his wits, his soul as well as his

body; believing that a true, cultured citizen of any state must be loyal to his God, his church, and his country.

As college life is the field in which youth with energy and initiative seeks to prepare itself for life's struggles, literature and science are studied in the light of an all-embracing philosophy which unifies knowledge and motivates action. The system is opposed to the pedagogical errors of undigested cramming, uncorrelated electives, over-specialization. The formation of habits of study, reading, and research, of quick thinking and exact expression is characteristic of their aim. Personal contact with the professors, whose example, taste, and experience are often a more potent factor of education than the professional lecture, is a vital part of the system.

Jesuit education prepares its students for eternity as well as for time; for life as well as for vocation.

The Need of College Education Today the professions, the arts, the sciences, as well as business, look for a college education in their members. The mere specialist, the master of one skill or subject, does not make for progressive civilization and culture. Man as a social being must have a broad vision and wide experience. He must be familiar with many fields of thought and interest.

This rounded culture should be the fruit of college experience. Through selected courses, the investigating mind is led into the various fields of systematized knowledge. Correlation of these courses makes for unity and thoroughness, for mastery in one's chosen field without ignorance of the others, for a well-stored mind that has been trained to think for itself and has grown capable of working out problems that present themselves in school and in later life.

Besides, one learns poise and refined bearing, acquires prudence and good judgment, from daily contact with fellow students of talent and ambition. By this hourly intercourse with one's fellow men of the best type, defects are overcome, habitual attitudes are adopted and perfected, and character is molded.

Organization The College of Arts and Sciences at present conducts the following departments: Biology, Chemistry, Classical Languages, Economics, Education and Physical Education, English and Journalism, History and Political Science, Medical Technology, Modern Foreign Languages, Philosophy, Physics and Mathematics, Religion, and Sociology. In

these departments the College offers courses leading to the degrees of Bachelor of Arts, Bachelor of Philosophy, and Bachelor of Science. It also conducts pre-professional courses that qualify students for entrance into the professional schools of Dentistry, Law, and Medicine.

Classical Studies It is one of the regrettable results of the present unrest in the educational world, where the forces arrayed to give vocational training, mechanical development, wage-earning skill, and physical culture, are clashing with the traditional classical methods, that the cultural and academic subjects have lost much of their former prestige. No other curriculum has been found to provide the comprehensive training of mind, heart, and will as surely and as efficiently as did the classical studies when they flourished in a golden age as the cause and the fruit of erudition, scholarship, and refinement.

Modern Sciences It is a grievous error to believe that the lovers of literature and art must be enemies of science and invention. The history of science shows plainly how the great scientific discoveries came out of the institutions hallowed for their classical learning. Until recent times all scientific information and the disputes and inventions of scientists found their way to the public through the Latin tongue.

Ample facilities are offered in the College of Arts and Sciences to the lover of natural science. Large, fully equipped laboratories for general and specialized chemistry, biology, medical technology, and physics are provided. Consecutive courses covering four years of intensive study lead to the degree of Bachelor of Science.

Commerce and Finance As college graduates frequently choose careers in the business world, a specialized curriculum in the subjects of commerce and finance is offered. Efforts are made to prepare young men for important positions in the various types of industrial and financial administration. After four years of intensive study one may earn the degree of Bachelor of Science.

Bequests and Gifts Because of its rapid growth the University must look to its friends and benefactors, and to all those whose bounty is being devoted to the cause of higher education, for the generous contributions which will enable the Uni-

versity to continue its building program. The University hopes for a continuance of financial as well as moral support from those who believe in placing college education within the reach of every deserving student, and who consider that education the safest and best which postulates as the foundation of its intellectual development the formation of character through moral and religious education.

The University cherishes the memory of all its benefactors, great and small. These share in the good works and prayers of the Jesuits of Loyola. Their generous assistance to the University, according to their means, will be remembered long after they are gone.

Among the distinguished benefactors of the University should be mentioned: Mr. and Mrs. E. J. Bobet, Mr. and Mrs. W. J. Vincent, Mrs. S. O. Thomas, Mr. and Mrs. Wm. P. Burke, Mr. Lawrence Fabacher, K. of St. G., Miss Katherine McDermott, Hon. Joseph A. Breaux, Mr. Bernard Ghio, Mrs. J. B. Palmer, and Mrs. George Swarbrick.

Those who are desirous of helping Loyola University in its sublime mission of higher education by erecting buildings as family memorials, or by endowing departments or lecture-chairs in any of its schools or colleges, are requested to make their donations, legacies and bequests in the proper legal form, as shown on page 71 of this Bulletin. One may specify the purpose for which the gift is to be used. This intention will be observed scrupulously. It is well to state whether the sum is for building and equipment or for endowment, as the latter must be invested and only the accruing interest may be used.

Scholarships Through the generosity of friends, the College is able to offer a limited number of scholarships each year to bright and ambitious young men of fine moral character. The College is very happy to be able to assist these splendid young men in getting a higher education which will prepare them for outstanding citizenship. The President and faculty of the College are deeply grateful to their friends who with noble Christian spirit have extended a helping hand to the less fortunate. It is earnestly hoped that others will help to increase our scholarship fund for the benefit of deserving young men.

A Perpetual Scholarship is founded when an endowment of \$4,000.00 is set aside for this purpose.

A *Course Scholarship* represents an amount which will cover the tuition of one student during his four years of college. The sum of \$560.00 may be deposited or \$140.00 may be paid annually.

An *Annual Scholarship* is provided by the yearly donation of \$140.00.

Scholarships cover the tuition fee only. The holder of the scholarship must pay the other fees at the beginning of the year, and he must at all times set an example of good conduct and serious application. The honor will be forfeited by any holder of a scholarship whose grades during a semester are unsatisfactory. Scholarships granted in the College of Arts and Sciences cannot be transferred to any other school or college of the University.

The following are scholarships which have been placed at the disposal of the University:

The W. P. Burke Scholarships (three).

The Rev. Francis X. Twellmeyer, S.J., Scholarship.

The Rev. A. E. Otis, S.J., Scholarship.

The Rev. Albert J. Biever, S.J., Scholarship.

The Louisiana State Councils of K. C. Scholarships (seven).

The St. Ignatius Scholarship, founded by Miss E. S. Fitch.

The St. Ignatius of Loyola Scholarship.

The Men's Sodality of Jesuits' Church Scholarship.

The Francis Xavier Wegmann Scholarship.

The Virginia Bobet Scholarship.

The Louise Thomas Scholarship.

The Albert J. B. Lapeyre Memorial Scholarship.

The Ladies' Marquette Auxiliary Scholarship.

The Mrs. Josephine Burke Palmer Scholarships (two).

The Hon. Joseph A. Breaux Scholarships (twelve).

The Joseph A. Lipari Scholarships (three).

Sodality of the Blessed Virgin Mary For the purpose of fostering religious faith and fervor, and to encourage the students to spiritual and scholastic leadership, the University Sodality offers many opportunities for personal development as well as training and practice in social work and religious activity. Weekly meetings are held for the discussion of phases of Catholic life.

Student Council The Student Council consists of eighteen members, representing the College of Arts and Sciences, the Schools of Law and Dentistry, and the Colleges of Pharmacy

and Music. These students are selected by the student body with the approval of the faculty. The duty of the Council is to unify student thought and action. It conducts general meetings and elections, sponsors and manages interclass contests, contributes to the student publications, and leads and directs student activities.

The Aristotelian Forum The function of this philosophy club is to promote greater active interest in scholastic philosophy by more intensive study, lectures, and public disputations.

Language Clubs To foster a deeper appreciation of the finer literature of modern foreign languages, French, German, Italian, and Spanish clubs are conducted by those more advanced students who qualify for membership.

Scientific Societies The Biology, Chemistry, Physics, and Mathematics Societies meet regularly for the discussion of special problems and for special lectures on scientific subjects. The students of the College of Arts and Sciences are eligible to membership subject to the respective special requirements for admission to each society.

Debating Clubs The students are encouraged to participate weekly in exercises of public speaking. To further this activity two debating clubs conduct weekly programs and engage in interscholastic debates with other universities in various sections of the country. These two clubs are known respectively as The Edward Douglass White Society and The Chief Justice Charles A. O'Niell Society.

Thespian Society The purpose of the Thespian Society is to develop and give an outlet to the dramatic talent of the students. With this object in view, several plays are given during the year.

Glee Club Students of the College of Arts and Sciences are eligible for membership in the Loyola Glee Club. The Glee Club takes an active part in the public entertainments and assemblies of the University.

University Band Membership in the University Band is open to the students of the College of Arts and Sciences if they have the required ability and training. All who become members are required to be regular and prompt in attendance at the appointed rehearsals and at all performances.

Student Publications The students of the University, under faculty supervision, issue two publications, The Maroon, a weekly, and the Students' Handbook, an annual, the editors of which are appointed by the Committee on Student Publications, and they in turn appoint their editorial staffs. The business management is in the hands of the students.

ENTRANCE PROCEDURE

Application For Admission Applicants for admission to the Freshman class must meet the requirements stated below under Methods of Admission. The specific units of credit that are required and other units that may be presented for admission to the Freshman class are listed under Admission Requirements.

Application for admission accompanied by proper credentials shall be filed with the Registrar at least two weeks in advance of the date of registration. Applicants for admission as Freshmen, or with advanced standing, must submit official records from all schools and colleges previously attended. These credentials are to be sent directly by the proper officer of the school or college in which they were earned and not through the student. Credentials which are submitted for admission become the property of the University and are kept permanently on file. Blank forms for transcripts of records may be had on application to the Registrar.

It is recommended that applicants have their credentials sent to the Registrar immediately after graduation from high school. This will enable the Committee on Admissions to pass on their eligibility and to inform them of any deficiencies that may be made up in the summer session.

The University reserves the right to refuse admission to applicants whose previous work is of such a grade as to create doubt regarding their ability successfully to pursue their scholastic work in the University.

All students are expected to be matriculated before the beginning of the session's classes, thus allowing them ample time to be assigned to classes and to be provided with laboratory equipment.

Students should be present on the opening day of classes. They will not be admitted under any circumstances after the first ten class days.

Methods of Admission *I. As a Regular Student*—Admission as a *matriculated student to the College of Arts and Sciences may be obtained by one of the following methods: (1) by certificate or diploma of graduation from an approved high school; (2) by examination; (3) by transfer from another institution of higher education.

Admission by Certificate—Admission without examination is granted to students who have graduated with a minimum of fifteen acceptable units from any high school accredited by a recognized standardizing agency, or by the State Board of Education, or by the State University of the state in which the high school is located. The application for admission must be accompanied by a certificate from the high school showing the quantity and quality of work accomplished by the applicant and giving information about his personality, character, and health.

Admission by Examination—An applicant who is not entitled to enter by certificate, as stated above, must take entrance examinations in the following subjects: English, history, foreign language, mathematics, and science. These examinations are held in September. Applications for these examinations should be made to the Registrar of the University at least two weeks in advance of the opening date.

Admission to Advanced Standing—Advanced standing will be given, at the discretion of the Committee on Admission and Classification, to an applicant who has fulfilled the high school requirements for admission and presents a transcript of credits certified by the proper official of the college or university last attended, showing all the scholastic work done in that institution and in all other institutions of collegiate rank previously attended, and giving the student an honorable dismissal. Credits presented from a non-accredited institution will be accepted rarely, at the discretion of the Committee on Admission and Classification, and only if the student has made satisfactory grades in his first semester's work in our College. Credits presented for work done by correspondence courses never will be accepted. Students applying for advanced

*A matriculated student is one who has fulfilled all entrance requirements, paid all fees that are due, and is pursuing regular courses leading to a degree.

standing should have all required credentials sent to the Registrar of the University at least two weeks in advance of their registration.

II. As a Special Student—A limited number of mature persons who are not eligible for admission into the University by certificate may be admitted as special students under the following conditions: (1) They must be at least twenty-one years of age; (2) they must not have been in attendance in high school during the previous year; (3) they are to present all available certified credits of previous school work, together with formal application for admission as special students, stating the subject courses desired and the reasons for desiring those courses. When no certified credits can be presented, the applicant must furnish a detailed statement of all previous educational work and practical experience.

By virtue of his classification, a special student is not eligible for any degree. He may ultimately become a candidate for a degree by completing by entrance examinations the admission requirements of the department in which he wishes to register.

Registration as a special student is for one semester only. Registration for a following semester will be refused if the student has not shown satisfactory earnestness and definiteness of purpose, or if his work has not been satisfactory in the preceding semester. No one may register in the University as a special student for more than two years.

III. As an Out-of-Course Student—A limited number of earnest students of mature years who, though fully qualified for admission to the College as regular students, do not wish to register as candidates for a degree, but merely want to pursue particular studies for cultural purposes, may be permitted to register as out-of-course students, provided they have obtained the recommendation of the Chairman of the Department in which they wish to register, and the written permission of the Dean. Such recommendation and permission will not be given to applicants who are not evidently qualified to pursue profitably the desired courses.

An out-of-course student may not establish any credits toward the fulfillment of requirements for a degree unless he changes his academic status to that of a regular student. Out-of-course students are not permitted to continue their

studies in the College beyond four semesters. At the beginning of each semester they must make written application to the Dean for the privilege of registering for that semester. This privilege will be granted only to those applicants who have shown, during the preceding semester, a satisfactory definiteness and earnestness of purpose.

Admission For admission to the College of Arts and
Requirements Sciences at least fifteen acceptable high school units are required. In general, these units should show several sequences of subject-matter adapted to the course to which admission is sought.

1. It is strongly advised that all students be prepared to present the following units:

	Units
English	4
Mathematics	2
Social Science	2
Latin or Modern Foreign Language.....	2
Science	1

2. Special Requirements:

For the Bachelor of Arts degree:

	Units
Latin	3

For the Bachelor of Science degree with biology, chemistry, or physics as a field of concentration:

	Units
French or German	2
Algebra	1½
Plane Geometry	1
Solid Geometry	½
Science	1

3. In general, only three units will be accepted from the following group; but students who register for the Bachelor of Science degree with economics as a field of concentration may present commercial or vocational subjects up to five units.

	Units		Units
Bookkeeping	1	Economics	½ - 1
Commercial Law	½ - 1	Music	1
Commercial Geography	1	Shop Work	1
Drawing—Mechanical	1	Stenography	½
Drawing—Freehand	1	Typewriting	½

4. A student may not register for a subject course which presupposes specific high school preparation, unless he has com-

pleted such preparation. Any deficiency in such preparation will make it necessary for him to take those basic courses which the University judges advisable. Credit for that work may or may not be allowed, according to the circumstances of the case.

Student The basic fee is \$175.00 a year. An additional fee **Expenses** of \$25.00 a year is charged for each laboratory science course. All fees are paid in quarterly installments, namely, on the day of registration in September, December 1, February 1, and May 1. Unless all of his indebtedness is promptly paid, the student will not be admitted to regular classes nor be allowed to take any tests or examinations. Auditors are charged on the same basis as are part-time students.

Students will be taxed for excessive breakage or destruction of University property. The decision covering each case will be made by the University.

A fee of \$2.00 is charged for each entrance examination, also for late registration.

A fee of \$1.00 is charged for a second transcript of credits, also for each subsequent transcript.

Each student may rent an individual locker for \$2.00 a year.

The graduation fee is \$25.00, payable on May 1. Each Senior is required to make a deposit of \$5.00 on the date of registration in September for his use of the academic cap and gown during the year. This deposit will be refunded after his graduation, provided he returns the cap and gown in good condition.

If a student withdraws from the University within ten days after a quarterly payment is due, he will be refunded the full amount of his payment for that quarter less \$10.00. No other refunds will be made except to the student who has paid a science laboratory fee and with permission of the Dean withdraws from that laboratory science course within ten days after registration. He will be refunded the full amount that he has paid for the course.

ADMINISTRATIVE PROCEDURE

The College Year Each year all class work begins in the third week of September on the day specified in the session calendar. Instruction includes thirty-four weeks, divided into two semesters of seventeen weeks each. There is a recess at Christmas and at Easter. Instruction is suspended on the greater legal holidays and on a few holy days observed in the Catholic Church.

Instruction The unit of instruction is one hour a week for one semester. Two hours of work in a laboratory are considered equivalent to one hour of class work. Students may receive credit only for the number of hours published for a course. No credit will be allowed for a course for which a student is not registered as a regular student.

A student is required to take a minimum of twelve semester hours of work each semester. Lower division students normally schedule sixteen semester hours each semester. Sophomores who have made an average of C in previous work may schedule, with the consent of the Dean, a slightly greater number of hours. Upper division students are expected to schedule approximately seventeen semester hours each semester. On the recommendation of his faculty adviser, an upper division student may take a slightly greater number of hours. Upper division students may not elect Freshman courses except as provided in the regulations for combined courses.

Attendance as auditors is not granted without written permission of the Dean.

Withdrawal A student who withdraws from the University during a semester before taking the final examinations of the semester forfeits all credit for work done in that semester. To obtain his honorable dismissal on withdrawing from the University, the student must obtain from the Dean a written permission for such withdrawal, which must be presented to the Registrar. This written permission will not be given if the student has not met all financial obligations to the University, or if he is under any official censure, or if there is any official charge pending against him.

A student desiring to withdraw from a scheduled course or to add another course after his semester's schedule has been filed in the Registrar's office, may do so only after having obtained written permission from the Dean. Permis-

sion to add a course or to change from one section of a course to another will not be granted after the first ten class days of a semester.

Attendance The University is insistent on regular and punctual attendance. Each tardiness, defined as a student's failure to be present when his name is called at the beginning of each class or laboratory, will be counted as a third of an absence, unless the tardiness exceeds fifteen minutes, when it will be counted as an absence. The student coming late is responsible for seeing that the instructor changes the absence noted at the beginning of the class to a tardiness. An absence on the day immediately following or immediately preceding a holiday will be marked as two absences unless, for some good reason, permission is asked for and granted beforehand by the Assistant Dean.

Any student whose number of absences exceeds twice the number of semester hours that the course carries in a semester is automatically suspended from that course. The student should report in writing to the office of the Assistant Dean within three days after his return to the University the reason for each absence incurred. Serious illness or a similarly grave cause will be the only reasons for which a student may incur absences. If a student exceeds the maximum number of absences, and if he has reported them to the office of the Assistant Dean within the specified time, a petition for reinstatement will be considered. If among the absences incurred there are more than three in any one course for which no acceptable excuse is presented, the student will under no circumstances be reinstated. The decision of the Committee on Attendance will be final.

Absences for any excuse whatever do not exempt a student from quizzes, tests, examinations, or other written work required during the period of absence. The responsibility of making up such work rests wholly upon the student. A failure grade for the omitted work will be charged against the student if he does not fulfill his obligations within the time limit determined by his professors.

Discipline The educational system of this University includes, as one of its most important features, the formation of character. It is expected that each student will be so loyal to the spirit and ideals of the University that the exercise

of proper self-control will come from his own convictions and free determination.

It is intended that the college regulations be a guide and help to foster that gentlemanly conduct which is presupposed in every Loyola student. The College requires regular and punctual attendance at all scheduled exercises, observance of college customs and regulations, serious application to study, and inoffensive conduct. A student who shows himself deficient in these essential points will be suspended or dismissed.

The University reserves the right to dismiss at any time a student who fails to give satisfactory evidence of earnestness of purpose and of interest primarily in the serious work of college life. In rare cases a student may be dismissed for a reason that seems to students and parents to be insufficient. In such cases the University is to be considered the more capable judge of what affects the interests both of the institution and of the student body.

Grades and Reports A report of the semester grades made by a student in his scheduled subjects is sent to the student's parents or guardians at the end of each semester. Other reports will be sent by the Dean whenever he judges it advisable to do so.

Grades are reported as follows: A, excellent; B, very good; C, good; D, merely passing; E, conditioned; F, failed; FE, failure because of excessive absences; FS, failure because of pre-examination scholastic deficiency; W, withdrew from subject course with permission; WF, failure because of withdrawal from subject course without permission.

A student must earn the right to take the semester examination in each of his scheduled subjects. To do so he must have attended the required number of class and laboratory periods in the subject, he must have submitted the required term paper, and he must have made a minimum average grade of D for the semester's work in the subject prior to the semester examination. This average will be computed from the grades made in the quizzes, the mid-semester test, the term paper, the laboratory work, and all other work required in that subject. A student who fails to qualify for a semester examination in a subject will be charged with a failure in that subject.

When a student, at the end of a semester, makes the passing grade of D or a higher grade, he is credited with the semester hours allowed for the subject course in which the

grade is made. Otherwise, he is not credited with any semester hours.

When a student is conditioned in a subject course at the end of a semester, he may remove the condition by examination. Only one such examination is allowed, and only on the day assigned by the Dean. If the student is successful in the examination, he receives full credit of semester hours, but the highest grade that he is allowed is D. If the student fails to remove the condition on the day assigned by the Dean, the condition becomes a failure. A student is not allowed to remove more than two conditions of one semester. Examinations for removal of first semester conditions are given during the second week in February. No student will be allowed to take an examination for removal of a second semester condition prior to the second week in September.

Classification Those students are ranked as Sophomores who of **Students** have credit for twenty-four semester hours; Juniors, those who have fifty-six semester hours; Seniors, those who have ninety-two semester hours. Students not included in any of these classifications are registered either as special students or as out-of-course students.

Scholastic Standing A student who does not pass two-thirds of the semester hours carried in each semester will be required to withdraw from the College for scholastic deficiencies.

A student who fails in one-third of the semester hours carried may be placed on probation for the next semester if his general average of grades shows a general weakness. Students on probation carry a reduced schedule.

Eligibility Rules Students taking part in dramatic performances, public debates, oratorical or elocution contests, or intercollegiate athletic contests, and those who are appointed to staffs of the University publications, as well as all officers of student organizations, are subject to the following eligibility rules:

They must be doing a minimum of twelve semester hours of work; they must have passed at least twelve hours of the work in which they were enrolled for the last semester in residence; they must not be under any official censure.

Part-Time Courses For the convenience of teachers and of others who have satisfied the requirements for college entrance, the University offers evening courses, Saturday morning courses, and summer courses. Such students schedule fewer courses per semester than are required of students attending the full-time day courses. For further details see special bulletins for these courses. A limited number of students who have not satisfied the regular requirements for college entrance, are permitted to take these part-time courses merely for cultural purposes. They are not allowed college credit for such studies until proper entrance credentials have been approved and placed on file in the University.

Combined Courses A student who has completed the Junior year in the College of Arts and Sciences may enter upon his professional studies and after one year of such studies may receive a degree from the College of Arts and Sciences, provided he has fulfilled the following requirements: (1) Before transferring to the professional studies he must have completed all the subject courses of the College of Arts and Sciences specifically required for the academic degree, as the professional studies will be accepted only as electives for that degree; (2) he must have been registered during the entire year as a Senior in the College of Arts and Sciences and as a First Year student or Freshman in the professional school in which he is taking his professional studies, and his program of first year studies in the professional school must have been approved at the beginning of the session by the Dean of the College of Arts and Sciences; (3) he must have completed successfully the first year of his professional studies as required by the professional school for his promotion to the second year of professional studies in that school, although not more than twenty-two semester hours of such studies will be accepted toward his academic degree; (4) he must not be under any official censure either in the College of Arts and Sciences or in the professional school; (5) he must see that an official record of the studies which he has taken and the grades he has made in them during his first year of professional studies, together with a statement that he has been promoted to the second year of professional studies and that he is not under any official censure in the professional school, be sent by the Dean of the professional school to the Dean of the College of Arts and Sciences.

Such a candidate for a degree from the College of Arts and Sciences must be present with the other candidates for degrees at the Baccalaureate Services and the Commencement Exercises of the University.

Requirements for Undergraduate Degrees *I. The Amount of Work*—To receive a baccalaureate degree, a student is required to complete at least 128 semester hours, distributed normally throughout four years in such manner as to include in his last two years a field of concentration consisting of 30 to 36 semester hours of upper division work in related courses, 18 of which must be taken from one department.

Before the end of his Sophomore year, the student, with the assistance of the Chairmen of the Departments, will select his field of concentration. The field, as outlined by the Chairmen, must be submitted in duplicate form to the Dean for approval. After such approval, any change in a student's field of concentration is not allowed without permission of the Dean and ordinarily such a change will prolong his studies before he may receive a degree.

N. B.—The curricula above contain only the minimum subject requirements. The additional semester hours required to complete the one hundred and twenty-eight are scheduled in one's field of concentration. The field of concentration becomes effective for students entering Junior year, 1940-1941.

*Requirement of Mathematics and Science in the A.B. and Ph.B. curricula is waived when the required High School units are offered in these subjects.

†Catholic students must schedule Religion courses during the entire four years.

‡Requirements in Mathematics and Science are determined by the Science which the student selects as his field of concentration.

III. Quality of Work A candidate for a degree must present not only the required character and quantity of work, but he must attain a certain standard of excellence in his work, especially in his major and minor areas of concentration. Hence, the candidate for a bachelor's degree must present, in addition to the minimum of 128 semester hours of credit, a minimum of 128 quality points, or an average grade of C or better for all subjects. Moreover, in his upper division work the student must earn in each course of his field of concentration as many quality points as semester hours carried.

Quality points are earned in the following manner: For the grade of A in a subject course, the student is credited with three times as many quality points as semester hours allowed for that course; for a grade of B, twice as many quality points as semester hours; for the grade of C, just as many quality points as semester hours. For the grade of D, semester hours are credited, but not quality points.

IV. Other Requirements In addition to the above requirements, the following regulations must be observed:

(1) The candidate for a degree either must submit a thesis of approximately 5,000 words on a particular phase of his major subject, or must take a comprehensive examination in his major subject, depending upon the regulations of the department of his field of concentration.

(2) A. Before writing his thesis the student must obtain from the Chairman of the Department of his field of concentration the approval of the subject of his thesis. Not later than the first class day in March in his Senior year he must present to his Chairman two copies of the completed thesis. The Chairman's approval of the thesis is required for graduation. B. If the student is to take a comprehensive examination, the field of examination is to be determined by the Chairman of the Department of his major subject. The successful completion of this examination is required for the graduation of the student.

(3) In September of the session during which the candidate expects to complete the work required for his degree, he must present to the Registrar a formal application for that degree.

(4) By May 1, the candidate must pay his graduation fee and discharge all other financial indebtedness to the University.

(5) All candidates for degrees must be present at the Baccalaureate Services and the Commencement Exercises. The University will not confer degrees *in absentia*.

Graduation Honors Graduation honors are computed according to the quality point system. A student's graduation average is determined by dividing the total number of quality points earned by the total number of semester hours carried by the student during his entire course. A student who has made an average of 2.5 graduates *cum laude*; one who has made an average of 2.8, *magna cum laude*; one who has made an average of 3, *maxima cum laude*. Record of these honors is inscribed on the diplomas and noted in the list of graduates published for the Commencement Exercises.

Knowledge of Regulations Every student is to acquaint himself with all the regulations of the University that pertain to him. Ignorance of a regulation is not accepted as an excuse for its violation. These regulations are to be learned from the General Bulletin of the University, the Students' Handbook, official instructions given to the students, and posted official notices. When a student registers in the University, it is understood that both the student and the student's parents or guardians agree to the student being governed by the regulations of the University, and will abide by decisions that may be made by officials in the University regarding the student.

SPECIAL PROGRAMS OF STUDY

Department of Medical Technology The special requirements for a baccalaureate degree in this department are as follows:

1. The completion of 170 semester hours of work as outlined by the department.

2. The candidate for a degree shall pass successfully a comprehensive examination in the field of medical technology during the first week in April of the year in which it is expected that the degree will be conferred.

3. To be accepted in fulfillment of any requirement for a degree, all work must be completed with at least the grade of D and a general average of C; also a grade of C or better must be made each semester in every upper division subject taken by the student in his field of concentration.

4. No student shall be considered a candidate for a degree if he has any deficiencies at the beginning of the second semester of his Senior year.

5. In selecting the elective work, the field of concentration must be kept in mind.

6. Free electives, which afford opportunity either for broader culture or for greater specialization, as the student may choose, may be taken by outstanding students who obtain permission to do so.

*All Catholic students are required to take two hours of Religion each week. In order to qualify for the Registry Examination of the American Society of Clinical Pathologists, an additional internship of twelve months, following graduation, must be served in an accredited laboratory of clinical pathology.

Pre-Dental Course The Dental Educational Council of America now prescribes two full years of college work for admission to the study of dentistry. This should include college courses in English, inorganic chemistry, organic chemistry, biology or zoology, and physics. These requirements are met at Loyola University by the following schedule:

First Year		
Subject		Sem. Hrs.
English Composition		6
Chemistry, Inorganic		8
General Biology		8
*Electives		10
Second Year		
Subject		Sem. Hrs.

*Electives		14

Pre-Legal Course In accordance with the standards of the Association of American Law Schools and the American Bar Association, students entering upon the study of law must have completed one-half of the work acceptable for a bachelor's degree granted on the basis of a four-year period of study by the State University or the principal colleges or universities in the state where the law school is located. Moreover, the student must earn as many quality points as semester hours carried during his entire pre-legal work.

The particular program offered by the College of Arts and Sciences is the following:

First Year		
Subject		Sem. Hrs.
English		6
French		6
Science or Accountancy.....		8
History		6
Sociology or Economics.....		6

*Electives to be chosen from any lower division courses offered in the College of Arts and Sciences. For electives the student is urged to take more cultural subjects than scientific subjects, such as English literature, history, sociology, and philosophy. All Catholic students are required to take four semester hours of religion each year.

Pre-Medical Course As most medical schools are now requiring three years of pre-medical work for admission, students are strongly urged to follow the particular program described below in preparation for the study of medicine:

First Year

Subject	Sem. Hrs.

*Electives to be chosen from any lower division courses offered in the College of Arts and Sciences. For electives the student is urged to take more cultural subjects than scientific subjects, such as English literature, history, sociology, and philosophy. All Catholic students are required to take four semester hours of religion each year.

THE GRAND COTEAU DIVISION OF THE COLLEGE

GRAND COTEAU, LA.

Saint Charles College, situated at Grand Coteau, Louisiana, in the southwestern part of the state, is a part of the College of Arts and Sciences of Loyola University. It is the training school for the members of the New Orleans Province (Southern States) of the Society of Jesus. The collegiate studies pursued there are the first part of the educational training in the formation of a Jesuit. These four years of study are followed by three years in the School of Philosophy and Science, by a period of teaching of three to five years, then by four years of theology in the School of Divinity, and finally by one year devoted to higher ascetical study.

On his admission to the Jesuit Order, the student begins a period of two years of study that is largely ascetical, consequently non-academic, in character. To keep up his academic interests, however, about three hours each day are devoted to academic study, one to Latin, another to Greek, and a third to English, and vacations as well as other periods of leisure are utilized for the acquisition of modern foreign languages.

During the second period of two years, however, the student's interest is concentrated on humanistic studies. As a majority of the members of the Jesuit Order spend their entire lives in teaching or in school administration, all are required to spend from three to five years in teaching, between the period of their philosophical and that of their theological studies. The training required for such a life of classroom activity is begun in the Grand Coteau Division of the College of Arts and Sciences.

In accordance with these purposes of the school, the enrollment in this Division is limited to the members of the Jesuit Order.

Requirements The minimum entrance requirement to this
For Admission Division is the completion of a standard high school course requiring four years of Latin. A large number of students, however, have completed at least two years of college study. Because of the differences in previous preparation, private study under the most careful individual guidance and a modified tutorial method of instruction are offered the

student to enable him to enjoy the fullest opportunity for self-development.

Advanced Standing Students who have already secured their baccalaureate degree, or who have finished a portion of their college work, may complete the required studies in a shorter time than the period ordinarily prescribed. Under exceptional circumstances, the student may be required to take only courses in education, so that he may comply with the prerequisites for teaching as demanded by law in the various states and by the prescriptions of the standardizing agencies.

Organization and Courses The Grand Coteau Division is administered by an Associate Dean of the College of Arts and Sciences.

The courses offered in the Grand Coteau Division are listed with the courses offered at the University in New Orleans. Since one of the primary purposes of the Division is the education of future teachers, the various systems of education in their historical development as well as in their practical effects are reviewed, but emphasis is placed largely upon the *Ratio Studiorum*, which is the method of teaching traditional in the Jesuit Order. Another primary purpose of the Division is to deepen the student's appreciation and love of the classical languages, and every effort is made to develop scholarly interest in these subjects on the part of those who show special aptitude.

Examinations Examinations are held at the end of each semester. They are both oral and written, and a rigorous test is exacted in each of the subjects of study. If it should be found that a student is unable to complete the courses in a satisfactory manner within the prescribed time, he is required to add one or more years to his course before being allowed to proceed.

DEPARTMENTS OF INSTRUCTION

The courses of instruction in all departments of the College of Arts and Sciences are numbered in accordance with the following plan:

Lower division courses, numbered from 100 to 299, are, in general, introductory, and basic.

Upper division courses are numbered from 300 to 399. For these courses, basic training in the same or in allied subjects is a prerequisite.

The college credit allowed for a course is stated in terms of semester hours.

The following is a list of the key letters used to indicate the different courses of instruction:

DEPARTMENT OF BIOLOGY AND MEDICAL TECHNOLOGY

John G. Arnold, Jr., Ph.D., Chairman

Bl. 101 General Botany An introductory course designed to acquaint the student with certain broad biological principles by means of a study of living organisms. The morphology and physiology of the cell are considered. With this as a foundation, study is made of the classification, structure, function, development, and relationship of typical examples of the chief plant groups. Two lectures and two laboratory periods. Offered every year.

4 sem. hrs.

Bl. 102 General Botany A continuation of the course Bl. 101. A study of reproduction, seeds, fruits, variations, heredity, and evolution in plants, followed by a survey of the great plant groups, and the classification of some of the common plants in Louisiana. Two lectures and two laboratory periods. Prerequisite: Bl. 101. Offered every year. 4 sem. hrs.

Bl. 104 General Zoology A continuation of the course Bl. 101. A comprehensive study is made of typical invertebrate and vertebrate animals. Cell division, embryology, and heredity are also considered. This course is required of pharmacy students. Two lectures and two laboratory periods. Prerequisite: Bl. 101. Offered every year. 4 sem. hrs.

Bl. 105 Invertebrate Zoology A study of the underlying principles of animal life. The taxonomy, morphology, physiology, life history, habits, and distribution of the invertebrate group (Protozoa, Porifera, Cœlenterata, Platyhelminthes, Nemathelminthes, Echinodermata, Annelida, Mollusca, and Arthropoda) are considered. This course is recommended for pre-medical students. Two lectures and two laboratory periods. Offered every year. 4 sem. hrs.

Bl. 106 Vertebrate Zoology A study of the taxonomy, morphology, physiology, life history, habits, and distribution of vertebrate animals. Reference is made to the lower chordate animals. Embryology, genetics, and ecology are considered briefly. This course is recommended for pre-medical students. Two lectures and two laboratory periods. Prerequisite: Bl. 105. Offered every year. 4 sem. hrs.

Bl. 201 Comparative Anatomy of the Vertebrates An intensive study of type forms as a preparation for human anatomy. Two lectures and two laboratory periods. Prerequisite: Bl. 105-106, or equivalent. Offered every year. 4 sem. hrs.

Bl. 202 General Embryology A study of the origin and maturation of germ cells, fertilization, and the formation of germ layers in certain typical invertebrate and vertebrate animals. Knowledge of the development of the systems of a vertebrate is obtained through an intensive study of the development of the chick. Two lectures and two laboratory periods. Prerequisite: Bl. 201. Offered every year. 4 sem. hrs.

Bl. 203 Genetics The study of similarities and differences in organisms. Chromosome theory, Mendelian inheritance, and biometry are considered. Two lectures. Prerequisite: Bl. 101-104, or equivalent. To be offered in 1940-1941. 2 sem. hrs.

Bl. 204 History of Biology A survey of the principal figures and discoveries which have contributed to the development of the science of biology. Two lecture periods. Prerequisite: Bl. 101-104 or equivalent. To be offered in 1940-1941. 2 sem. hrs.

Bl. 301 Bacteriology This course embraces bacteriological technique, the classification and the study of the properties of important non-pathogenic and pathogenic bacteria. The principles of immunity and serology, and a brief survey of protozoal parasites and filtrable viruses are also considered. Urine, gastric, milk, and water analyses comprise this course. This course is recommended for pre-medical students. Two lectures and two laboratory periods. Prerequisite: Bl. 101-104, 201-202. Offered every year. 4 sem. hrs.

Bl. 302 General Histology Histological technique, the study of the microscopic structure of tissues and organs of the mammalian body, and the study of the fundamentals of blood counting. Recommended for pre-medical students. Two lectures and two laboratory periods. Prerequisite: Bl. 301. Offered every year. 4 sem. hrs.

Bl. 303-304 General Physiology The study of the normal function of tissues and organs of animal forms. Special emphasis is laid on the mammalian type in order better to understand human physiology. Two lectures and two laboratory periods. Prerequisite: Bl. 201-202. Offered every year. 8 sem. hrs.

Bl. 305 Animal Parasitology A study of parasites in relation to disease. The various types of parasites, their life histories, and the conditions that they cause will be considered. This course is recommended for pre-medical students and for those specializing in biology. Two lectures and two laboratory periods. Prerequisite: Bl. 101-104, or equivalent, and Bl. 201-202. Offered every year. 4 sem. hrs.

Bl. 306 Animal Microtechnic A course in the principles and methods of preparing animal material for microscopical study. The student is given practice in fixing, embedding, sectioning, staining, and mounting tissues; the preparation of whole mounts. It is recommended for biology majors. One lecture or conference, and at least three laboratory periods a week. Prerequisite: Bl. 305. Offered every year. 4 sem. hrs.

Bl. 307-308 Industrial Bacteriology A course to familiarize the student with the principles of bacteriology, mycology, and protozoology in relation to the various industries. Two lectures and two laboratory periods. Prerequisite: Three years of chemistry and one year of biology. Offered every year.

8 sem. hrs.

Bl. 310 Pothier Seminar The seminar is composed of the staff and of students majoring in biology, as well as others interested in the subject. The work of the seminar consists in the reading and discussion of papers on biological subjects by the members, and lectures by visiting scientists. Offered every year.

No credit.

Bl. 390-391 Biological Problems. This is a course to allow the student to carry advanced biological work under faculty supervision. This course is open to Seniors. Prerequisite: Three years of biology. Offered every year.

Credit determined by work done.

DEPARTMENT OF MEDICAL TECHNOLOGY

John G. Arnold, Jr., Ph.D., Chairman

Md. 101-102 A course to acquaint the prospective medical technician with the care of the equipment of the laboratory and the ethics of the profession. Offered every year.

8 sem. hrs.

Md. 201-202 A course to acquaint the student medical technician with the fundamentals of urinalysis, fecal analysis, and hematology. This course will not be allowed as practical experience. Offered every year.

8 sem. hrs.

Md. 301-302 This is a course which allows the student medical technician to perfect the technique essential to the practical laboratory training which is to follow. Offered every year.

16 sem. hrs.

Md. 390-391 A course to develop the proficiency of the prospective technician and to acquaint the student with the advanced techniques in the following subjects:

Urinalysis

Gastro-Enterology

Hematology

Pathogenic Bacteriology

Serology

Basal Metabolism

Tissue Sections

Electrocardiography

Parasitology

Museum Preparation Technique

Gross and Microscopic Photography

Offered every year.

16 sem. hrs.

DEPARTMENT OF CHEMISTRY

Rev. George A. Francis, S.J., Ph.D., Chairman

Ch. 101-102 General Inorganic Fundamental principles of chemistry; the laws of chemical action and description of the non-metallic and metallic elements and their compounds. Two lectures, one recitation, and two laboratory periods. Offered every year. 8 sem. hrs.

Ch. 201-202 Organic Chemistry Discussion of the important compounds of aliphatic and aromatic series and preparation of typical compounds. Two lectures and two laboratory periods. Offered every year. 8 sem. hrs.

Ch. 301 Inorganic Qualitative Analysis Detection of the common cations and anions, based on the application of chemical principles. One lecture and three laboratory periods. Offered every year. 4 sem. hrs.

Ch. 302 Inorganic Quantitative Analysis Gravimetric and volumetric methods of analysis. One lecture and three laboratory periods. Offered every year. 4 sem. hrs.

Ch. 303-304 Physical Chemistry A general survey of the subject. Treatment of the laws of chemical phenomena—the gaseous, liquid, and solid states of matter. The course treats of thermo-chemistry, laws governing chemical changes, and electro-chemistry. Two lectures and two laboratory periods. Offered every year. 8 sem. hrs.

Ch. 305-306 Industrial Chemistry A study of the more important chemical industries. The course deals with production of petroleum products; animal and vegetable oils and fats; sugar; water for municipalities and for industrial uses; paints, varnishes, lacquers, synthetic plastics; industrial alcohol, etc. Two lecture periods. Offered every year. 4 sem. hrs.

Ch. 307-308 Technical Methods of Analysis Analysis of the substances discussed in Ch. 305-306. Three laboratory periods. Offered every year. 6 sem. hrs.

Ch. 309-310 Biological Chemistry A study of the chemical constituents of the body. The chemistry and functions of the carbohydrates, fats, proteins, vitamins, and mineral elements of foods. Two lectures and three hours of laboratory. Offered every year. 7 sem. hrs.

DEPARTMENT OF CLASSICAL LANGUAGES

Rev. Robert M. Brooks, S.J., A.M., Chairman

A. Latin

Lt. 001-002 Basic Latin A course intended to give the essentials of grammar. The semester hours will be credited toward the completion of the total hours required for graduation, but not toward the fulfillment of the language requirement. Offered in 1940-1941. 4 sem. hrs.

Lt. 003-004 Latin Composition Thorough review of the principles of syntax, intended to lead to proficiency in the idiomatic translation of selected passages from English authors. The semester hours will be credited toward the completion of the total hours required for graduation, but not toward the fulfillment of the language requirement. Offered every year. 4 sem. hrs.

Lt. 005C Ecclesiastical Latin Selections from the Latin Vulgate, the Liturgy, and from early Christian and medieval writers. Offered every year. 3 sem. hrs.

Lt. 101 Cicero One of these four orations: Pro Archia, De Signis, Pro Marcello, Pro Ligario. Rapid review of syntax. Offered every year. 3 sem. hrs.

Lt. 102 Horace Ars Poetica and select lyrics; principles of versification. Offered every year. 3 sem. hrs.

Lt. 104C Livy Books 21 and 22. Offered every year. 3 sem. hrs.

Lt. 105C Horace and Ovid Select works. Offered every year. 3 sem. hrs.

Lt. 106 Latin Composition Advanced composition based on Bradley's Arnold. Offered every year. 2 sem. hrs.

Lt. 201 Cicero A study of the principles of the art of literary expression as illustrated and exemplified by the Pro Milone, Pro Lege Manilia, or the Second Philippic. Offered every year. 3 sem. hrs.

Lt. 202 Horace Literary study of the Satires and Epistles. Offered every year. 3 sem. hrs.

Lt. 203C Virgil A literary study of the Eclogues and Georgics. Offered every year. 2 sem. hrs.

Lt. 204C Tacitus A literary study of select works. Offered every year. 2 sem. hrs.

Lt. 205C Latin Literature A survey of Latin literature from its beginning to the end of the Golden Age; select readings from all the classical authors. Offered every year. 2 sem. hrs.

Lt. 206 Latin Composition Advanced composition. A continuation of Lt. 106. Offered every year. 2 sem. hrs.

Lt. 301 Cicero A study of his letters and non-oratorical prose, or further study of his speeches. Offered in 1939-1940. 3 sem. hrs.

Lt. 305 Latin Dramatic Poetry Plautus and Terence. Plays selected by the professor. Offered in 1940-1941. 3 sem. hrs.

Lt. 309 Latin Didactic Poetry Lucretius *De Rerum Natura*. Offered in 1940-1941. 3 sem. hrs.

B. Greek

Gk. 001-002C Introductory A course for those who enter college without high school Greek. Etymology, syntax. St. Luke's Gospel. The semester hours will be credited toward the total hours required for graduation, but not toward the fulfillment of the language requirement. Offered every year. 4 sem. hrs.

Gk. 101C Xenophon Selections from the *Anabasis*. Study of historical and literary background; syntax of the moods and tenses reviewed; composition based on selections studied. Offered every year. 3 sem. hrs.

Gk. 102C Homer Selections from the *Iliad* and *Odyssey*. Dialects; outline of Greek epic poetry; composition based on selections studied. Offered every year. 3 sem. hrs.

Gk. 105C Introductory Greek Composition Practice in writing simple Greek. Offered every year. 2 sem. hrs.

Gk. 203C Lysias-Plato. Lysias, selected speeches; Plato's *Apology* and *Crito*. Offered every year. 3 sem. hrs.

Gk. 204C Chrysostom-Demosthenes St. John Chrysostom, *In Eutropium*; Demosthenes, selected speeches. Offered every year. 3 sem. hrs.

Gk. 205C Demosthenes-Basil Demosthenes, *De Corona*; St. Basil, *On Pagan Literature*; lectures on Greek oratory. Offered every year. 3 sem. hrs.

Gk. 209C Advanced Greek Composition A continuation of Gk. 105C. Offered every year. 2 sem. hrs.

Gk. 301C Sophocles-Euripides Sophocles, *Antigone*; Euripides, *Hecuba*. Lectures on Greek drama. Offered every year. 3 sem. hrs.

Gk. 303C Thucydides The Sicilian Expedition. Lectures on Greek historiography. Offered every year. 3 sem. hrs.

Gk. 304C Xenophon-Herodotus Xenophon, *Cyropaedia*; Herodotus, *Histories*. Methods of the two authors compared.

Offered every year.

3 sem. hrs.

DEPARTMENT OF EDUCATION AND PHYSICAL EDUCATION

Rev. James F. Whelan, S.J., Ph.D., Chairman

A. Courses in Education

Ed. 301 The School and Society A core course in education that continues throughout the entire scholastic year. In this course the philosophy of education is discussed in the light of its various phases and implications. The principles and organization of elementary, secondary, and higher education are treated critically in terms of the needs of the pupil and society. Recent trends in the development of the curriculum, supervision and administration are likewise studied in terms of their contribution to the individual and to society. This course is required of all students offering a field of concentration in education. Offered every year. 4 sem. hrs.

Ed. 302 The School and Society (Continued) A continuation of Ed. 301. Education and guidance; democracy and education; national systems of education; education and the totalitarian state. This course is required of all students offering a field of concentration in education. Offered every year. 4 sem. hrs.

Ed. 307 Philosophy of Education. The philosophies of naturalism, socialism, and nationalism, and the systems of education to which each of these philosophies gave rise. This course then examines the attitude of the more conservative philosophers and educators toward naturalism, socialism, and nationalism. Offered every year. 3 sem. hrs.

Ed. 309 Objectives and Problems of Vocational Education Objectives to be attained and organizations to attain them. A critical study of the present-day problems of vocational education and the methods offered for their solution. Offered in 1940-1941. 2 sem. hrs.

Ed. 310 History of Education The historical foundations of modern education; the aims and methods of education in our western civilization. Offered every year. 3 sem. hrs.

Ed. 321 Principles of Elementary Education The elementary school curriculum and curriculum making; progressive trends in elementary education; the supervision of elementary education; the administration of elementary education. Offered in 1940-1941. 3 sem. hrs.

Ed. 330 General Psychology—Course I Definition and scope; mental faculties; the external senses; the internal senses; impulses and desires; reflex action; the faculty of thought; the faculty of choice; feelings and emotions; habit; character. Offered every year. 3 sem. hrs.

Ed. 331 General Psychology—Course II The nature of the soul; the origin of the soul; the immortality of the soul; union of soul and body; the abnormal mind; the subconscious; mental influence on physical functions; the psychology of learning; applied psychology. Offered every year. 3 sem. hrs.

Ed. 333 Educational Psychology A study of the educand with emphasis upon the learning implications. Offered every year. 3 sem. hrs.

Ed. 334 Psychology for Business A practical application of psychology with emphasis upon those aspects which are of value in the business world. Offered in 1940-1941. 2 sem. hrs.

Ed. 335 Applied Vocational Psychology The application of the principles of psychology in the solution of human relation problems of the student, teacher, director, and supervisor. Offered in 1940-1941. 2 sem. hrs.

Ed. 336 Evaluation and Statistics in Education The place of evaluation in an educational program; critical discussion of instruments of evaluation in terms of the objectives of education; the administration and use of intelligence tests, aptitude tests, achievement tests, prognostic tests. Offered every year. 3 sem. hrs.

Ed. 341 Teaching Nature Study and Science in the Elementary School The offerings of nature study and science toward the unification of the curriculum. Offered in Summer School 1941. 3 sem. hrs.

Ed. 342 Teaching Music and Art in the Elementary School The psychological basis of appreciation; stories of the composers and artists; incidences which prompted the compositions; the correlation of music with art; and the contribution of music and art to the curriculum. To be offered in 1940-1941. 3 sem. hrs.

Ed. 345 Visual and Audio Aids in Education A course designed to show the possibilities and the advantages of excursions, school museums, stereoscopes, projecting machine, film strips, moving pictures, and the radio in teaching the various subjects of the curriculum. To be offered in Summer School 1941. 3 sem. hrs.

Ed. 350 Practice Teaching This course offers to prospective teachers a cadetship in teaching under the direction of an approved and experienced teacher. The work of the course consists in observation of the critic teacher; actual teaching under the direction and observation of the critic teacher; and conferences with the critic teacher, the school principal, and the instructor of the course. Students registering in this course must have an average of 1.25 quality points in the teaching field, together with at least six semester hours in education, before they will be allowed to teach any subject. This course must include at least sixty clock hours of actual teaching while being observed by the critic teacher. Records of at least twelve conferences with the critic teacher must be presented to the instructor of the course. Offered every year. 4 sem. hrs.

B. Courses in Physical Education

Ped. 171 Principles, Organization and Administration of Physical Education This course includes management, aims, objectives, and basic principles of physical education. Offered in 1940-1941. 2 sem. hrs.

Ped. 173 Health Education—Course I A course in history, factual information and modern trends in health education. Offered in 1940-1941. 2 sem. hrs.

Ped. 186 First Aid This course covers fundamental techniques useful in emergency situations. To be offered in 1941-1942. 1 sem. hr.

Ped. 187 Elementary Folk and National Dances A study of the authentic dances and costumes of different nations. This course includes dances and rhythms suitable for children in the first six grades of the elementary school. To be offered in Summer School 1941. 2 sem. hrs.

Ped. 188 Home Hygiene and Care of the Sick Individual health and personal hygiene; healthful home and community environment; the care of children; the care of the sick, the care of patients with communicable diseases; the treatment of common ailments and emergencies. Pl. 311-312 Ethics Definition, nature, object, and necessity of ethics; subjective and objective ultimate end of man; human action, its merit and imputability; norm of morality, true and false; man's duty to his Creator; man's duty to himself; man's duty to his neighbor; duties to property; society: domestic, civil, international, religious. Offered every year. 4 sem. hrs.

Pl. 314 History of Philosophy: Ancient Study of pre-Hellenic, Greek, Greco-Roman, and Greco-Oriental philosophy to the Christian era. To be offered in 1941-1942. 2 sem hrs.

Pl. 315 History of Philosophy: Scholasticism A study of patristic and scholastic philosophy from the beginning of the Christian era to A. D. 1450. To be offered in 1941-1942. 2 sem. hrs.

Pl. 316 History of Philosophy: Early Modern Transition from scholastic to the modern philosophy; a study of philosophic thought from Francis Bacon to Kant. To be offered in 1940-1941. 2 sem. hrs.

Pl. 317 History of Philosophy: Late Modern Study of philosophic thought from Kant through the eighteenth century, and of present day tendencies in philosophy. To be offered in 1940-1941. 2 sem. hrs.

DEPARTMENT OF PHYSICS AND MATHEMATICS

Rev. Karl A. Maring, S.J., Ph.D., Chairman

A. Physics

Ph. 201-202 General Physics This course in the principles of general physics is designed for students offering science as a field of concentration and also for students preparing for medicine or engineering. It is intended to impart a thorough grounding in the underlying principles of mechanics, heat, sound, light, and electricity. Three lectures and two laboratory periods. Prerequisite: Mt. 101 or 103, Mt. 105. Offered every year. 10 sem. hrs.

Ph. 201-202N General Physics Prerequisite and general content of course same as Ph. 201-202. Two lectures and two laboratory periods. Offered every year. 8 sem. hrs.

Ph. 201-202S General Physics This course is designed for students not offering science as a field of concentration or preparing for medicine or engineering, but for those who desire a general knowledge of the fundamental principles of physics toward an understanding of the physical happenings of everyday life. It is intended also to satisfy the science requirement of the Ph.B. degree. Two lectures and one laboratory period. Offered every year. 6 sem. hrs.

Ph. 201-202D General Physics This is a demonstration lecture course designed to meet the requirements of the American Association of Dental Schools. It embraces the fundamental principles underlying mechanics, heat, sound, light, and electricity, emphasizing especially problems peculiar to dentists. Three lectures each week. Offered every year. 6 sem. hrs.

Ph. 301 Electricity and Magnetism A lecture course giving an extended and mathematical treatment of the theory and practical applications. Three lectures per week. Prerequisites: Ph. 201-202 (N, S, D), Mt. 301-302. Offered every year. 3 sem. hrs.

Ph. 302 Electron Theory A course stressing the electron theory in its relation to general electric phenomena, to radio activity, X-rays, and atomic structure. Three lectures per week. Prerequisite: Same as for Ph. 301. Offered every year. 3 sem. hrs.

Ph. 303-304 Electrical Measurements Advanced laboratory work in electricity and magnetism. Coordinated with Ph. 301 and having the same prerequisites. Two laboratory periods. Offered every year. 4 sem. hrs.

Ph. 307-308 Analytical Mechanics The elementary theory of the statics, kinetics, and dynamics of particles and rigid bodies. Three lecture periods. Prerequisites: Same as for Ph. 301. Offered every year. 6 sem. hrs.

Ph. 311 Optics The fundamental principles of geometrical and physical optics, with an introduction to modern theories of radiation. Prerequisite: Same as for Ph. 301-302. Three lecture periods. Offered in 1940-1941. 3 sem. hrs.

Ph. 312 Optical Measurements This is an advanced laboratory course to accompany Ph. 311. It includes measurements on the index of refraction, spectrometry (visible spectrum), focal length of converging lenses and lens systems, lens aberrations, interference, photometry, polarized light. Two laboratory periods. To be offered in 1940-1941. 2 sem. hrs.

Ph. 315 Heat and Thermodynamics First and second law of thermodynamics, with special application to the problems of chemistry. Prerequisite: Same as for Ph. 301-302. Three lecture periods. Offered in 1940-1941. 3 sem. hrs.

Ph. 316 Laboratory Course in Heat This course is intended as a laboratory course to accompany Ph. 315. Two laboratory periods. Offered in 1940-1941. 2 sem. hrs.

Ph. 319 Sound The dynamics of vibrating bodies; transmission of sound; architectural acoustics, loud speakers, and microphones; supersonics; characteristics of speech and hearing. Prerequisite: Same as for Ph. 301-302. Three lectures periods. To be offered in 1941-1942. 3 sem. hrs.

Ph. 320 Laboratory Work in Sound The course is designed to illustrate by experiment the principles of Ph. 319. Two laboratory periods. To be offered in 1941-1942. 2 sem. hrs.

Ph. 331 Modern Physics The origin and development of some of the more important concepts of Physics with special emphasis on the theories and developments of the last half century. Prerequisites: Same as for Ph. 301. Offered every year. 3 sem. hrs.

Ph. 335-336 Electronics and Radio Physics The electron and its properties; thermionic and photo-electric emission; radio transmission and receiving circuits and apparatus. Prerequisite: Ph. 301-302, Mt. 310. Three lecture periods. Offered in 1940-1941. 6 sem. hrs.

Ph. 337-338 Practical Electronics and Radio Physics A laboratory course designed to accompany and illustrate Ph. 335-336. Two laboratory periods each week. Offered in 1940-1941. 4 sem. hrs.

B. Drawing

Dr. 101-102 Elementary Mechanical Drawing Lettering; applied geometry; orthographic projections; auxiliary views; revolutions; isometric and oblique projections; developments. Offered every year. 6 sem. hrs.

Dr. 201 Descriptive Geometry Orthographic drawing; auxiliary views; point-line-plane problems; revolution; concurrent non-coplanar forces; curved lines and surfaces; practice and drafting-room problems. Offered every year. 3 sem. hrs.

Dr. 202 Machine Drawing Piping, detailing, and general working drawings. Offered every year. 3 sem. hrs.

C. Mathematics

Mt. 101 College Algebra Fundamental algebraic operations: addition, subtraction, multiplication, division, factoring, equations; theory of equations. This course fulfills the algebra requirement for all students except those who elect their field of concentration in mathematics or chemistry or physics. Offered every year. 3 sem. hrs.

Mt. 103 College Algebra Logarithms; slide rule; theory of equations; inequalities; combinations and permutations; mathematical induction; binomial theorem; determinants; progressions; infinite series; partial fractions. Offered every year. 3 sem. hrs.

Mt. 105 Plane Trigonometry Trigonometric functions of acute angles; use of the table of natural functions; the right triangle; trigonometric functions of any angle; functions of the sum or the difference of two angles; the oblique triangle; graphs of functions; trigonometric identities and equations; applications of trigonometry to algebra. Offered every year. 3 sem. hrs.

Mt. 203 Plane Analytic Geometry Different systems of coordinates; point; straight line; conics; transformation of coordinates; higher plane curves. Prerequisite: Mt. 103. Offered every year. 3 sem. hrs.

Mt. 206 Elementary Surveying General methods used in measurement of distances, angles, difference of elevation and area; practical use of the chain, tape, level, compass, and transit; solution of simple problems in surveying. Prerequisite: Mt. 103. Offered every year. 3 sem. hrs.

Mt. 210 Spherical Trigonometry The right spherical triangle; the oblique spherical triangle. Applications. Prerequisite: Mt. 105. Offered in 1940-1941. 3 sem. hrs.

Mt. 301 Differential Calculus Functions; limits; derivatives; successive derivatives; maxima and minima; roots; differentials; curvature; theorem of mean value; indeterminate forms. Prerequisite: Mt. 203. Offered every year. 3 sem. hrs.

Mt. 302 Integral Calculus Integration by all methods; evaluation of the constant of integration; the definite integral; the fundamental theorem of integral calculus; series; multiple integrals. Prerequisite: Mt. 203. Offered every year. 3 sem. hrs.

Mt. 310 Differential Equations Equations of the first order and first degree; equations of the first order but of higher degree; linear equations of a higher order with constant coefficients; total differential equations; simultaneous equations; homogeneous linear equations; equations of higher order and higher degree; integration in series. Prerequisite: Mt. 302. Offered every year. 3 sem. hrs.

Mt. 312 Theory of Equations Descartes' rules; Sturm's theorem; Lagrange's and Newton's methods of solution of equations; solution of equations by radicals; Cardan's formula; Vandermonde's principle; graphical solution of equations; introduction to the theory of groups. Prerequisite: Mt. 103, 105, 301. Offered in 1940-1941. 3 sem. hrs.

Mt. 316 Vector Analysis Addition, multiplication, differentiation, and integration of vector quantities. Prerequisite: Mt. 302. Offered in 1940-1941. 3 sem. hrs.

Mt. 318 Solid Analytic Geometry Determinants; matrices; systems of coordinates; the point; the line; the plane; rotation of axes; tangent and normal planes and lines; quadric surfaces; invariants. Prerequisite: Mt. 203. To be offered in 1941-1942. 3 sem. hrs.

Mt. 320-321 Elementary Mathematical Statistics Histograms; the statistical constants; the normal law; trends; method of least squares; correlation, regression and index numbers. Prerequisite: Mt. 301, 302. To be offered in 1941-1942. 6 sem. hrs.

Mt. 398-399 Advanced Calculus A course in advanced calculus, based on Osgood's Advanced Calculus. To be offered in 1941-1942. 6 sem. hrs.

DEPARTMENT OF RELIGION

Rev. Edward T. Cassidy, S.J., A.M., M.S., S.T.L., Chairman

Rl. 101 A Survey of Catholic Doctrine and Practice This course is offered every year for students who have had no religion courses in high school. It embraces the fundamental concepts every Catholic student should know concerning the Creed, the Sacraments, and the Ten Commandments.

4 sem. hrs.

Rl. 103 Religion and Leadership Qualities expected of a Catholic Leader; the Church and History; Great Catholic Leaders. The Catholic Faith as a working system of life; Love and Loyalty to Christ, the Leader par excellence; Catholic Action in practice.

2 sem. hrs.

Rl. 105 Apologetics Revelation, the historicity of the Gospels; the divinity of Christ; the Church of Christ; the primacy of Peter; infallibility; the marks of the Church. Offered every year.

4 sem. hrs.

Rl. 201-202 Channels of Redemption A detailed study of the Sacraments; actual and sanctifying grace. Offered in 1940-1941.

4 sem. hrs.

Rl. 301 Christian Life and Worship What it means to be a Christian; a Christocentric universe; an interpretative study of the liturgy of the Church.

2 sem. hrs.

Rl. 302 Exegesis The Bible in General; inspiration canon of the Bible; rules of interpretation; exegesis of the four Gospels; the Life of Christ.

2 sem. hrs.

Rl. 305-306 Christian Marriage Notions on morality; the Church's part in determining morality; the power of the state and Church over marriage; prenuptial requirements; premarital chastity; general preparation for marriage; rights and duties of married couples; birth control; divorce. Offered every year.

4 sem. hrs.

RI. 308 Encyclicals A conspectus of the great Encyclicals of Leo XIII, Pius X and Pius XI, regarding the Church's relation to modern thought and modern problems confronting mankind. 2 sem. hrs.

DEPARTMENT OF SOCIOLOGY

Arthur T. Donohue, Ph.D., Chairman

SI. 101 Introductory Sociology Social principles; sociology and related sciences; postulates of sociology; man's dignity and final destiny; man essentially a social being; the bedrock foundation of social life. Offered every year and Night and Saturday classes, 1940-1941. 3 sem. hrs.

SI. 102 Introductory Sociology Social factors and social institutions; environment, habits, group behavior; the modern family, the state; social action; proper attitude toward social work; obligation of social service; practical aspects of social work; social influence of the teachings of Christ. Offered every year and Night School, 1941. 3 sem. hrs.

SI. 205 Social Problems and Agencies Social pathology; crime and juvenile delinquency; poverty and pauperism; heredity and eugenics; feeble-mindedness and insanity; unemployment; Worker's Education Bureau in the United States; Knights of Columbus. Offered every year and Night School, 1940-1941. 3 sem. hrs.

SI. 206 Social Aspects of Poverty Poverty and its background; inequality, competition, individualism, and weakened cultural forces; formal and informal charity as a basic factor of relief; principles of relief. Offered every year and Night School, 1940-1941. 3 sem. hrs.

SI. 301 Urban Sociology A study of the development of the modern city. Man's major adjustments to urban life, such as the new realignment of rights and duties and personal freedom in the city environment, the communal responsibility for housing, health, education, and recreation. To be offered in 1942-1943. 3 sem. hrs.

Sl. 303 The Family Factors of family integration; the causes of family disintegration; the industrial revolution and its effects on family life; divorce, birth control, factors of family reintegration. This course will be allowed for credit in the Department of Religion. Offered every year.

3 sem. hrs.

Sl. 305 Christian Social Service A course intended for those preparing for professional social work. Catholic ethics and Catholic interpretation of social life; the Church's teaching; principles and methods in social activities; social value of the Old Testament; social influence of Christ's teachings. Offered in Summer School, 1941.

3 sem. hrs.

Sl. 306 Christian Social Reform This is a study of the Christian attitude toward the modern social questions. The papal encyclicals of Leo XIII and Pius XI are stressed. This course will be allowed for credit in the Department of Religion. Offered every year.

3 sem. hrs.

Sl. 307 Social Aspects of Industry A comprehensive study of social problems arising from industrial conditions. The causes of unemployment; industrial disorganization; growth of unionism; social unrest; poverty and relief; solution of the problem; "New Deal" policies. Offered in 1940-1941.

3 sem. hrs.

Sl. 308 Social Legislation The development of social statutes for the protection of the worker; minimum wage laws; shorter working days; compulsory education; sweatshop; mediation; compulsory investigation and arbitration; recent social laws. To be offered in 1940-1941.

3 sem. hrs.

Sl. 316 Labor Problems Labor as a factor in production; unemployment; child labor and labor organizations; recent labor developments. Offered in Summer Session, 1941.

3 sem. hrs.

Sl. 318 Rural Sociology The development of the agricultural industry in the United States; modern problems of agriculture; causes of agrarian discontent; agricultural reform; the "New Deal" legislation. To be offered in 1940-1941.

3 sem. hrs.

Sl. 319 Crime and Juvenile Delinquency A scientific approach to the problems of crime, the criminal, punishment, and reform. The causes of juvenile delinquency; treatment; methods of diagnosis; probation and parole; the juvenile court system. Offered in 1941-1942. 3 sem. hrs.

Sl. 322 Social Theory The development of social theory; contributions of Plato, Aristotle, and other Greek and Roman writers; the influence of Christianity; modern political and social contributors and their influence on modern social thought. To be offered in Summer Session, 1941. 3 sem. hrs.

Sl. 323 Seminar in Current Social Problems A comprehensive course in the study of current social problems. Detailed treatment is given to industry, working conditions, wages, unionism, unemployment and cooperation. The results of the present capitalistic society, such as poverty, unequal distribution of wealth, relief, crime and juvenile delinquency are emphasized. Other social problems will receive minor consideration. Offered every year. 3 sem. hrs.

FORM OF GENERAL BEQUEST

I hereby give and bequeath to Loyola University, New Orleans, Louisiana, for the use of said institution in fulfillment of its general corporate purpose.....

(State here the sum of money desired to be given, or, if it be the residue of an estate, state this fact.)

FORM OF BEQUEST FOR A PARTICULAR PURPOSE

I hereby give and bequeath to Loyola University, New Orleans, Louisiana, for the following purpose.....

(State clearly the special object of the bequest, as well as the sum of money or property, real or personal, constituting the same.)
